

Teaching Positions Available for 2024-25
Department of Economics
Queen's University, Kingston, ON CAN K7L 3N6

The Department of Economics at Queen's University invites applications from suitably qualified candidates interested in teaching a course in:

- Microeconomic Theory I (ECON 212) (expected enrolment 100)
- Macroeconomic Theory I (ECON 222) (expected enrolment 80)
- Introductory Statistics (ECON 250) (expected enrolment 80)
- Introductory Econometrics (ECON 351) (expected enrolment 95)
- Computational Methods in Economics and Finance (ECON 354) (expected enrolment 70)
- Topics in Environmental Economics (ECON 391) (expected enrolment 60)
- Applied Econometrics (ECON 452) (expected enrolment 60)
- Seminar In Macroeconomics V (ECON 494) (expected enrolment 20)

Candidates for any of these positions should have a doctorate in Economics and teaching experience at the university level, or equivalent experience, in the appropriate fields. Fall term appointments will be for the period September 1, 2024 to December 31, 2024, with classes in session from September 3, 2024 to December 3, 2024, followed by an examination period. Winter term appointments will be for the period January 1, 2025 to April 30, 2025, with classes in session from January 6, 2025 to April 4, 2025, followed by an examination period.

The University invites applications from all qualified individuals. Queen's is strongly committed to employment equity, diversity and inclusion in the workplace and encourages applications from Black, racialized/visible minority and Indigenous people, women, persons with disabilities, and 2SLGBTQ+ persons. All qualified candidates are encouraged to apply; however, in accordance with Canadian immigration requirements, Canadian citizens and permanent residents of Canada will be given priority. Please indicate in your application if you have a valid legal work status in Canada. Applications from all qualified candidates will be considered in the applicant pool. In order to support your employment at Queen's, we require you to indicate whether or not you will need a work permit.

The University will provide support in its recruitment processes to applicants with disabilities, including accommodation that takes into account an applicant's accessibility needs. If you require accommodation during this process, please contact: Alex Fox, econ.admin@queensu.ca, 613-533-2254.

The academic staff at Queen's University are governed by the *Collective Agreement* between the Queen's University Faculty Association (QUFA) and the University, which is posted at [Collective Agreements/LoU's/MoA's](#).

Applications should include a complete and current curriculum vitae, letters of reference from two (2) referees, and any other relevant materials the candidate wishes to submit for consideration such as a letter of intent, teaching dossier, etc. **Please arrange to have applications and supporting letters emailed directly to:**

Alex Fox, Department Manager
Department of Economics
Dunning Hall
Queen's University
Kingston, Ontario, Canada K7L 3N6
econ.admin@queensu.ca

Applications will be received until June 27, 2024. Review of applications will commence shortly thereafter, and the final appointment is subject to budgetary approval. Additional information about the Department of Economics can be found at <http://www.econ.queensu.ca/>.

Course Description:

ECON 212/3.0 Microeconomic Theory I

Theory of markets and prices: decision-making by individuals and firms, equilibrium conditions under various market structures, and issues of individual and social welfare. This course presumes a knowledge of calculus at the first-year university level.

Prerequisites: ECON 110 or [ECON 111 and ECON 112]

Corequisites: MATH 120 or MATH 121 or [MATH 123 and MATH 124] or MATH 126

Course Description:

ECON 222/3.0 Macroeconomic Theory I

A study of the basic models of national income determination and financial markets. The course includes application of policy problems such as inflation, unemployment and balance of payments disequilibria.

Prerequisites: ECON 110 or [ECON 111 and ECON 112]

Corequisites: MATH 120 or MATH 121 or [MATH 123 and MATH 124] or MATH 126

Course Description:

ECON 250/3.0 Introductory Statistics

Statistical methods as used in economics. This course introduces statistical hypothesis testing and covers basic methods as far as linear regression analysis.

Prerequisites: ECON 110 or [ECON 111 and ECON 112]

Corequisites: MATH 120 or MATH 121 or [MATH 123 and MATH 124] or MATH 126

Course Description:

ECON 351/3.0 Introductory Econometrics

Estimation and inference in multivariate econometric models. Emphasizes understanding of methods and their properties, as distinct from their formal theoretical development. Practical tools for preparing and analyzing data with appropriate models are taught using econometric software.

Prerequisites: A grade of C in ECON 250 (or STAT 263) and completion of (MATH 120 or MATH 121 or [MATH 123 and MATH 124] or MATH 126)

Corequisites: ECON 255

Course Description:

ECON 354/3.0 Computational Methods in Economics and Finance

An introduction to numerical methods as used in economics, finance, and related fields. Topics include optimization, non-linear systems, numerical approximation, and simulation. Includes a major project where students implement economic models or replicate work found in the literature.

Prerequisite: ECON 255

Corequisites: ECON 250 (or Stats 263). Programming experience is recommended but not required.

Course Description:

ECON 391/3.0 Topics in Environmental Economics

This course provides a solid understanding of the economic causes and consequences of environmental problems and suggests practical solutions. Microeconomic analysis is used to help address a range of issues related to the environment. Likely topics include global environmental problems, sustainable development, environmental law, strategic models of regulation, environmental ethics, and bioeconomic models.

Prerequisites: ECON 212

Course Description:

ECON 452/3.0 Applied Econometrics

Project-based. Emphasizes problems in specifying and estimating econometric models, methods available for detecting and handling these problems, and economic applications. Extensive use of matrix algebra.

Prerequisites: ECON 255; ECON 351 or STAT 361

Course Description:

ECON 494/3.0 Seminar in Macroeconomics V

Series of seminar courses on macroeconomic topics. Evaluation based on presentations, formal/informal participation and written papers. Offerings vary from year to year with staff availability. Topics announced in advance of course selection and available on the Undergraduate webpage.

NOTE Fourth year ECON Medial students with fewer than 30.0 ECON units and fourth year APEC students without ECON 320 should contact the department before May 1 to obtain permission to register in this course.

Prerequisites: Level 4 or above and a (cumulative GPA of 1.90 or higher) and a (minimum GPA of 2.60 in 30.0 units of ECON) and (ECON 310; ECON 320; ECON 351)

Exclusions: ECON 480-499
