2026 W. Edmund Clark Lecture

Gillian K. Hadfield

Bloomberg Distinguished Professor of AI Alignment and Governance at the School of Government and Policy and Department of Computer Science at Johns Hopkins University

Can AI be Governed?

Gillian K. Hadfield is a faculty member of the Vector Institute of Artificial Intelligence and is a Schmidt Sciences AI2025 Senior Fellow.

Originally trained as an economist and legal scholar, Hadfield's research now focuses on innovative design for legal, regulatory, and technical systems for AI, computational models of human normative systems and building AI systems that understand and respond to human values and norms. She is a faculty affiliate at the Center for Human-Compatible AI at the University of California Berkeley and she previously served as the inaugural director and held the Schwartz Reisman Chair in Technology and Society at the University of Toronto.
