Undergraduate Student Summer Research Fellowships (USSRF)

The [Undergraduate Student Summer Research Fellowship \(USSRF\)](#) provides an experiential learning opportunity for undergraduate students enrolled in a Bachelor's degree program (at the time of application) at Queen's. The program is intended to provide students with meaningful opportunities to engage in discovery-based learning and to develop research and presentation skills and is not limited to any one discipline. Applications can be downloaded [HERE](#).

Important Information

- Prior to applying, students must identify a faculty researcher at Queen's willing to be their supervisor, provide training and the necessary resources to conduct the research (e.g., supplies, field travel costs, and equipment) to complete the research, and provide their financial contribution to fellowship and research project.
- Need help finding a supervisor? See [USSRF FAQ](#) for suggestions.
- Supervisor financial portion must be in place by May 1.
- Fellowships are valued at \$9800 + vacation pay and fringe benefits and will be distributed by Queen's payroll in four equal installments on the last day of May, June, July and August.
- Students and faculty researchers are encouraged to develop the research proposals together for submission to the program.
- Students are expected to commit full-time hours at **35 hrs/week for 16 weeks from May 1-August 31**. Any revision to this timeline must be approved by the supervisor and will decrease the total value of the fellowship.

Submit your applications to econ.ugrad.chair@queensu.ca before Feb 19th for consideration
